Medical Oxygen Plant inaugurated at Tiruchirappalli Unit

A medical oxygen plant has been inaugurated at the Main Hospital premises of Tiruchirappalli unit on 29.12.2022 by Shri S.M. Ramanathan, GM In-charge, Operations, Tiruchirappalli unit. This medical grade oxygen generation plant with a capacity to deliver 500 litre per minute (30 Cubic Metre) was designed and developed by HPEP, Hyderabad in association with Indian Institute of Petroleum, Dehradun under the Council of Scientific and Industrial Research. The erection and commissioning of the plant was done by Maintenance and Services, Modernisation and Civil departments of Tiruchirappalli unit. This plant will support the supply of medical oxygen to the Main Hospital in case of heightened demand for the gas. GMs, Medical Superintendent, representatives of participating unions and other senior officials of the unit were present on the occasion.
